

Mainspring.

Lever.

Reliable welds.

KAWASAKI ZZR 1400.

**With European TÜV-certification.**

**BMW F 800 S / F 800 ST.**

- Makes maintenance work possible in almost any terrain (tire repair / changing and chain maintenance).
- Design allows adequate leverage for easy use.
- Optimal lean angle and ground clearance.
- Excellent corrosion-resistance by sandblasting and chemical treatment before powder-coating (black).
- Strong and lightweight, (thin-wall but extremely stable steel tube construction).
- Optional **Spring Mounting Tool** available for easy mounting.
- European TÜV-certification.

**BMW F 800 R.**

**HONDA XL 700 V Transalp.**

**YAMAHA TDM 900.**

Jacking up the motorbike: the appropriate method is crucial.

Stand at the side of the motorbike, left hand on the handlebar, right hand on the passenger grip, right foot on the lever.

Stand with your entire weight on the jackup lever ...

... at the same time, pull the motorbike backwards.
