Nonshock-Joint of the patented Nonshock Endurance Bar.

NEW

- Patented, adjustable, vibration and shock absorbing bar (ø 28 mm inside, ø 22 mm outside).
- Reduces vibration and shock transmission to hands joints, GPS or PDA devices and reduces fatigue.
- Continuously variable handle height / angle.
- 2 bar sizes available (**Nonshock Endurance Bar** for longer cable / Bowden cables or **Nonshock Endurance Bar S** for shorter cable / Bowden cables).
- The combination of interchangeable rubber damper with variable pre-load delivers complete adjustability.
- Smooth controlled damping allows precise steering.
- CNC-milled from high strength aluminium alloy.
- Black-anodized surface.
- Optional accessories: **Nonshock Endurance Crossbar**, **Nonshock Endurance GPS-Mount** (Crossbar incl.), **Nonshock Endurance Handguard Kit**.

Vibration and shock absorption of Nonshock Endurance Bar.

NEW

2 handlebar sizes available (**Nonshock Endurance Bar** for longer cable / Bowden cables or **Nonshock Endurance Bar S** for shorter cable / Bowden cables).

Nonshock Endurance Bar mounted on crosser motorbike.

NEW

Nonshock Endurance Bar mounted on streetfighter motorbike.

NEW

Nonshock Endurance Bar mounted on Quad.

NEW

Underside of the Nonshock-Joint with special rubber damper.

Adjustable handle height.

Special rubber damper.

Adjustable post-load of the special rubber damper.

NEW

Nonshock Endurance Bar

Bar Converter

140

Mounting of Nonshock Endurance Crossbar.

- Attachment of GPS devices at **Nonshock Endurance Bar** with **Nonshock Endurance Crossbar**.
- Reduces vibration and shock transmission to mounted GPS or PDA device (meets manufacturer specifications).
- Suitable for most available GPS devices.
- Compatible with **GPS and PDA Bags**.
- GPS-Mount powder-coated, black.
- Crossbar surface is black-anodized.
- CNC-milled from high strength aluminum alloy.
- Pivoting top section for optimal viewing angle.

A clear view of the cockpit displays.

Pivoting top section with vibration and shock absorbtion.

Vibration and shock absorbing attachment of GPS at the pivoting top section.

NEW

Vibration and shock absorption of Nonshock Endurance Bar.

Handguard Kit

180

BMW R 1200 GS.

NEW

- Specifically designed for use with the **Nonshock Endurance Bar**.
- Provides excellent wind and cold weather protection when riding in harsh conditions.
- Full aluminium backbone with two mounting points provides strong protection for levers and bars in the event of a fall.
- Backbone made from black powder-coated aluminium.
- Protective guards made from impact resistant plastic.
- Mounting kit made from aluminium.

Full aluminium backbone.

NEW

Aluminium backbone.

Mounting at Nonshock Endurance Bar.

Full aluminium backbone attaches at two points.
