

The perfect bag for every bike

## K-DRIVE CLICK & LOCK SYSTEM

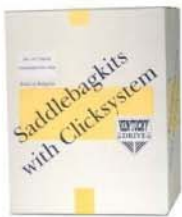

By Vartex

K-Drive Click & Lock saddlebags are fixed to the saddlebagguards by means of a lockable clicksystem . The key to lock the clicksystem is at the inside of the bags.

### Our "Click & Lock" system has many advantages:

- Our bags are easily mounted and removed in just a few seconds.
- The bags themselves are locked to the motorcycle with a key.
- The bags don't touch the bike and therefore don't damage it.
- They can also be attached to motorcycles without a duo saddle.
- As the bags are made specifically (or adapted) for a model, every bag we manufacture fits perfectly.
- Our saddlebag holders are discreet, following the contour of the motorcycle, and are perfectly chromed.

Each saddlebagsset is supplied in an individual packing, containing :

- 1 pair of click & lock saddlebagsupports
- 1 pair of saddlebags with our clicksystem mounted on the rigid backside of the bags.
- All necessary bolts.
- 2 keys to lock the bags to the supports. (lock is at the inside of the bags)

The perfect bag for every bike

## K-DRIVE CLICK & LOCK BAGS

By Vartex

For each cruiser, we try to make a saddlebag that fits the bike optimally. Even if we use, for certain bikes, the same type of saddlebag, the position of the lockable clicksystem is different for each type of motorcycle.

All our click & lock bags are reinforced with PVC to keep their shape. They have also a rigid backside on which the clicksystem is mounted. All buckles are rustfree.

### We use the following materials :

- Iparex 1100 : this is a very strong synthetic leather, made following our technical specifications. It has a luxury leatherlook and is one of the best materials for saddlebags. It is strong, waterproof and don't need any maintaining. This is the material, we use the most. Allmost all the bags you will see in this website are made of Iparex
- Leather : we use 3,5 mm thick rindsleather.

*Lockable 150 bag, made of Iparex*

### We make our bags in several versions :

- Traditional "HC" bags with straps and rustfree buckles, plain our studded
- Lockable "CL" bags. These bags can be locked with a small key and have no straps.

The perfect bag for every bike

## K-DRIVE CLICK & LOCK LOCKABLE BAGS

By Vartex

We make the following bags in a lockable version :

145 bags - 147 bags - 150 bags - 153 bags - 154 bags

The K-Drive lockable bags don't have the traditional straps. They are closed by a lock that is hidden under the flap. The lock itself can be closed by means of a small key.

These bags have a single button fastener that will hold the saddlebag lid down while riding at speed.

The bags are completely reinforced with PVC to keep their shape. They also have a rigid backside on which the click & lock system is mounted, specifically for each type of motorcycle.

Lockable LC10 sissybar with click & lock system.  
It can be used on the K-Drive sissybars.
