

FORCEFIELD
CLIMATECONTROL

Climate Control Clothing Range from Forcefield 'PROTECTION WITHOUT COMPROMISE'

*It is now recognized by most that Forcefield Body Armour is the best protection that you can buy. Being protected from the harsh world of crashes and spills is one important thing. Looking further than this is the equally harsh world of the weather! Most extreme sports take place no matter what the weather is throwing at us- we intend to protect you from these elements also.....
Shortly, we will be selling climate control clothing, by Forcefield. Windproof and Thermals for Motorcyclists, Climatic clothing for Ski, Snowboard and Mountainbiking.*

Tornado Motorcycle Range-

A range that is to be worn as an undergarment. Whether your passion is Sports riding, touring, or you use a motorcycle for commuting- The Forcefield Tornado motorcycle range will protect, and make that journey a lot more comfortable and enjoyable.

The range benefits by using a material called **Defender fabric**. The properties of *Defender* are-

- Windproof,
- Ultra Light construction
- Thermal properties,
- Breathable
- Advanced membrane to help repel water.

Tornado Shirt

Using our advanced windproof fabric, *Defender* and clever garment design mean that the worst of the wind and cold will be kept away from your body- crucial to maintain a comfortable core body temperature!

Windproof, lightweight construction with thermal properties, breathable, and with a special membrane to help repel water. The perfect riding garment.

Sizes available: XS, S, M, L, XL, XXL

FTS KR 699,00

Tornado Pants

Using *Defender*, the same intelligent material as the tornado shirt, the pants complete the set. The material runs full length down the front of the legs, meaning complete protection!

A comfort waistband and realistic sizing make this a great product.

Sizes available: XS, S, M, L, XL, XXL

FTP KR. 499,00

Tornado Balaclava

For the worst of the weather, the tornado balaclava sets the standards. Using *Defender fabric*, your head will keep to its best temperature, important for long periods of sustained riding.

One size available

FTB KR. 249,00

Tornado Neck Warmer

Comfortable, and not too tight, other than the warmest of summer days, neck warmers are normally worn- you might as well make it a good one! Uses *Defender fabric*

One size available

FTNW KR. 249,00

Tornado Gloves

The body's extremities feel the cold first, and soon spoil the ride or journey. Designed as an ultra-thin under glove, this gives extra protection for the worst days in the saddle. From wrist to fingertip, *Defender fabric* gives this glove great protection.

Sizes available: S, M, L, XL

FTG KR. 199,00

Tornado Socks

As with the hands, it is the extremities that feel the cold first no one likes cold feet! Properties of *Defender* work great with feet.-Windproof, Lightweight construction fabric with thermal properties, breathable, and a special membrane to help repel water.

Sizes available: S, M, L

FTSO KR. 149,00
