N.B. The cleaned and functioning slave cylinder has a racing of 10 or 11 mm. Do not operate the lever until the system is not completely installed, in that case it would create some air bubbles which could reduced the piston racing, if this happens make again the discharge (see assembly instructions). Mecdraulics with code which starts with 60 are road one and of series are supplied with black lever, with code 61 are with road pump and cylinder of 14 diameter and with code 63 always road and with cylinder for threaded Buell. If it is required the lever with different colour please make explicit request (see spare parts).

P.B.R. has obtained the LRQA approval for the Management System according to the norms and rules established by the Organism of Accreditation of United Kingdom UKAS (ISO 9001:2000).

See or download the certificate from our website www.pbr.it

Art Director: Alessandro Palladino
Edition: October 2008

PBR PRODUCES AND REALIZES FOR THE FIRST TIME THE NEW HYDRAULIC CLUTCH TO REPLACE THE MECHANICAL ONE EXISTING ON THE MOTORBIKE. WITH CARBON TUBES, SELF-ADJUSTING, SUITABLE FOR ALL KIND OF CLUTCHS ALSO WITH ANTI HOPPING, LESS MAINTENANCE REQUIRED, LESS LEVER PULL REQUIRED, FILLED WITH HIGH QUALITY PBR DOT 5.1 BRAKE FLUID, READY, LIGHT AND EASY TO INSTALL. THESE ARE SOME OF THE MAIN CHARACTERISTICS.
