

Profile  
(YAMAHA YZF-R6).

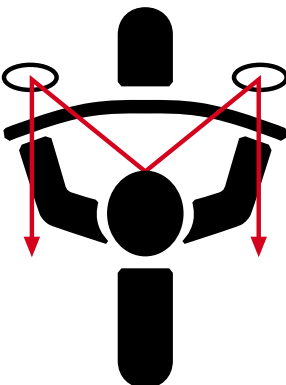

Profile mirror extensions  
fit directly to the  
original profile of  
the mirror base.

**For motorbikes and scooters.**

**Mirror Extension – improved field of vision.**

Blocked view without Mirror Extension.

Free view with Mirror Extension.

- Provides a better view of traffic behind by increasing the distance of the mirrors from fairing and handlebars.
- **Hinge, Universal and Link Mirror Extensions** are CNC-milled from black-anodized, high-strength aluminium alloy.
- **Profile Mirror Extensions** are CNC-milled from polyamide.
- Attractive outline supports integration in the appearance of the motorbike / scooter.
- All mounting hardware included.
- For TÜV information see [www.sw-motech.com](http://www.sw-motech.com).

**Application list available at**  
[www.sw-motech.com](http://www.sw-motech.com)
